Warisha Tul Fatima Arshad
SOFTWARE ENGINEER

Objective

I am an undergraduate student currently doing my bachelor's in Software Engineering, enrolled in 6th semester, from Bahria University. My approaches to software development and problem-solving have evolved throughout time. I bring a broad skill set to the table, being proficient in Python, ASP.NET, React JS, HTML, CSS, and the fundamentals of object-oriented programming (OOP). Whether you need robust database designs, bespoke software solutions, or dynamic web applications developed, I have the expertise to deliver.

Skills

Programming	C#, Python, ASP.NET
Web Development	HTML, CSS, Java
Software Development Methodologies	OOP, SQA
Database Management	MySQL, SQL, Data Science
Artificial Intelligence	Codium, ChatGPT, Gemini

Projects

Stock Market	Data Science, Python, Jupyter Notebook, Graphs, Logistic Regression, and accuracy
Banking System	Python and Gradio for the user interface, and MySQL for database management
Employee Attendance and Payroll	SQL Server Management Studio (SSMS), SQL, Visual Studio, C#, and Windows Forms
Data Structures & Algorithms	Knapsack Problem, C#
Inventory Management System	Object Oriented Programming using C#, Windows Form

Education

2021-2025	**Bachelor's in software engineering**	
	Bahria University Karachi Campus	
2019-2021	**Intermediate**	
	Meritorious Science College	
2017-2019	**O-Levels**	
	The Academy	

Languages

Urdu	Native language
English	Conversational fluency, strong reading and writing skills
